

Aquatec Fish Tank Cleaner - FTC

Aquatec Solutions A/S is aiming for simplicity in design.

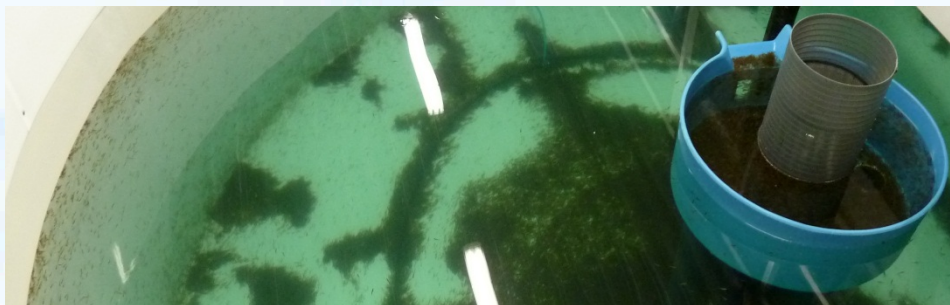

Users says: "The FTC is one of the most revolutionary steps in fish farming"

Facts

- Collect dead fish, faeces and waste feed
- Standard components
- Large sieve prevents blocking
- Easy installation

Benefit

- Easy cleaning
- Non blocking
- No disturbance of fish while cleaning
- Excellent function from start feeding to large fish.
- Reduce stress on fish
- Overfeeding is easy to register

Aquatec Solutions offer the Fish Tank Cleaner in different shape and models depending on the requirement

- Shape: Round or squared
- Placement: Center, inside, outside

Most important information for dimensioning FTC is fish sizes, water flow and tank diameter.

| AQS - FTC | Flow (up to) per fish tank | | | |
|-----------|------------------------------|-----|----------------------|-----|
| | First feeding | | Pre-smolt/smolt | |
| Model | m ³ /hour | lps | m ³ /hour | lps |
| AQS 465 | 8 | 2 | 15 | 4 |
| AQS 550 | 15 | 4 | 30 | 8 |
| AQS 700 | 35 | 10 | 50 | 14 |
| AQS 850 | 50 | 14 | 75 | 21 |
| AQS 900 | 65 | 18 | 90 | 25 |
| AQS 1050 | 80 | 22 | 125 | 35 |
| AQS 1350 | 120 | 33 | 225 | 63 |
| AQS 1550 | | | 350 | 97 |
| AQS 1850 | | | 500 | 139 |
| AQS 2000 | | | 650 | 181 |
| AQS 2150 | | | 850 | 236 |
| AQS 2350 | | | 1100 | 306 |
